

Collaborative project management system

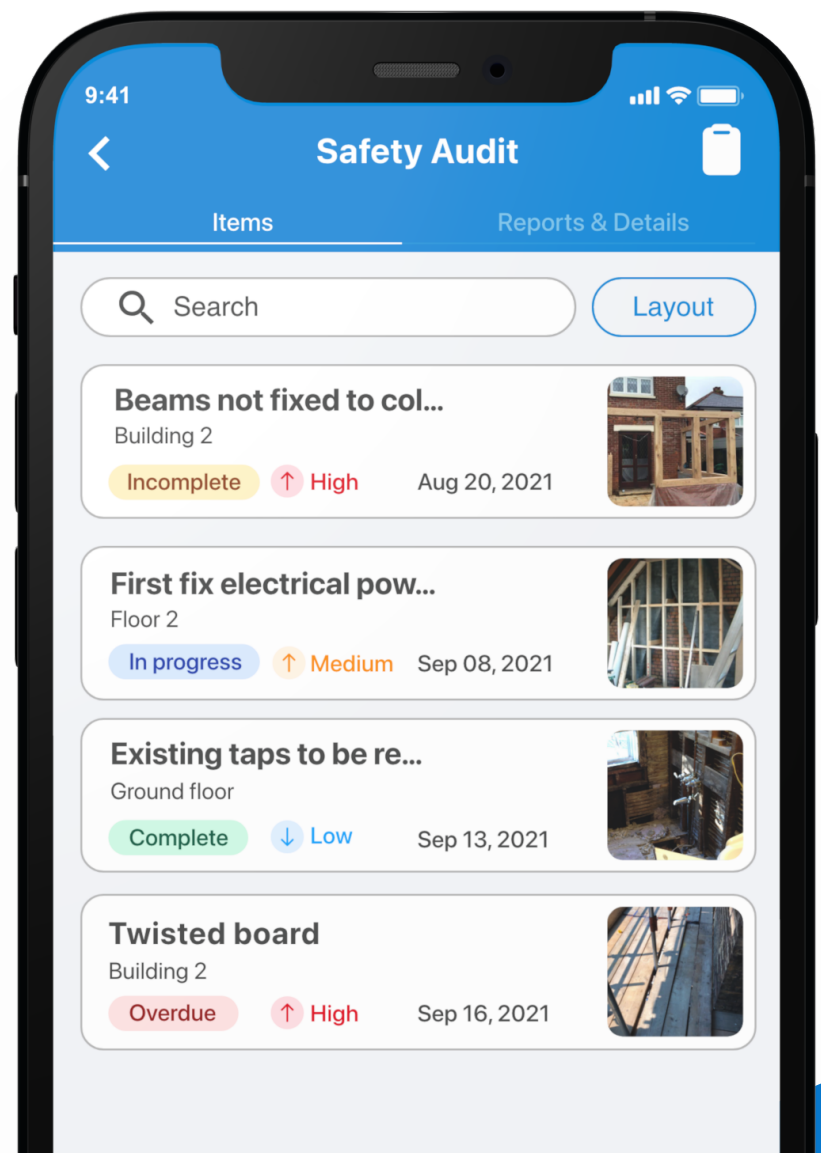

Who is Insite for?

Whether you work for a **main contractor**, **sub-contractor** or as an **independent advisor**, Insite Teams is a handy tool that's with you every step of the process. We've designed Insite to help teams of any size.

What is Insite?

Web & mobile construction software that helps project teams to manage and close out audits and inspections.

It offers a simple and efficient way to **track project progress**, streamline construction workflows and **improve quality control** ultimately saving you time and avoiding costly delays.

Key solutions for your business

Collaborate

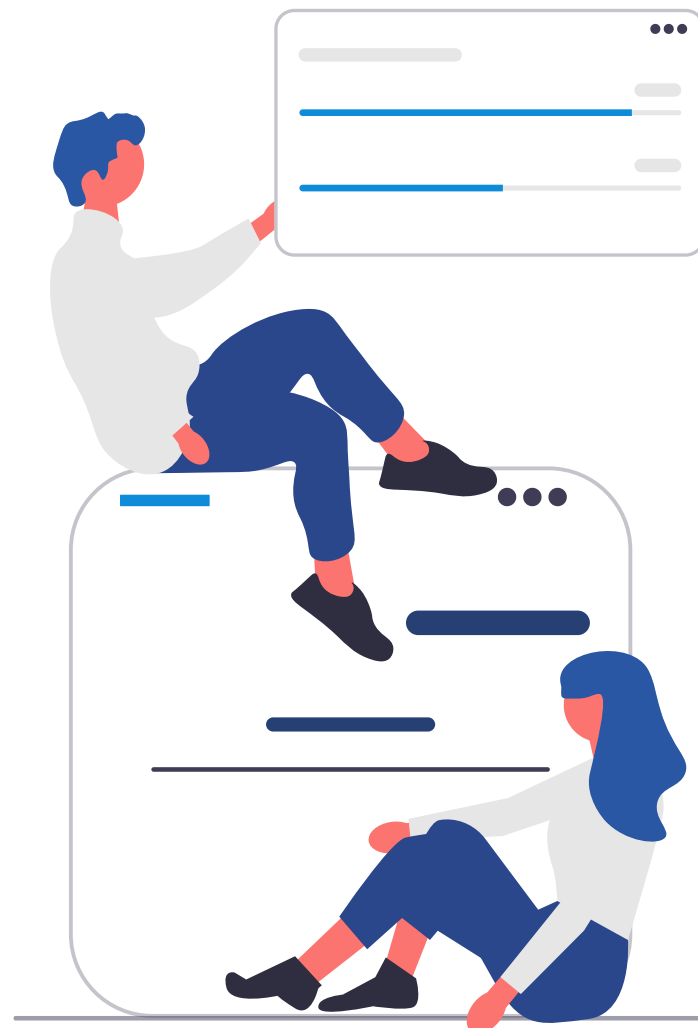

Conduct streamlined audits & inspections anywhere with your team. Say goodbye to paperwork and email ping-pong when tracking and closing out issues.

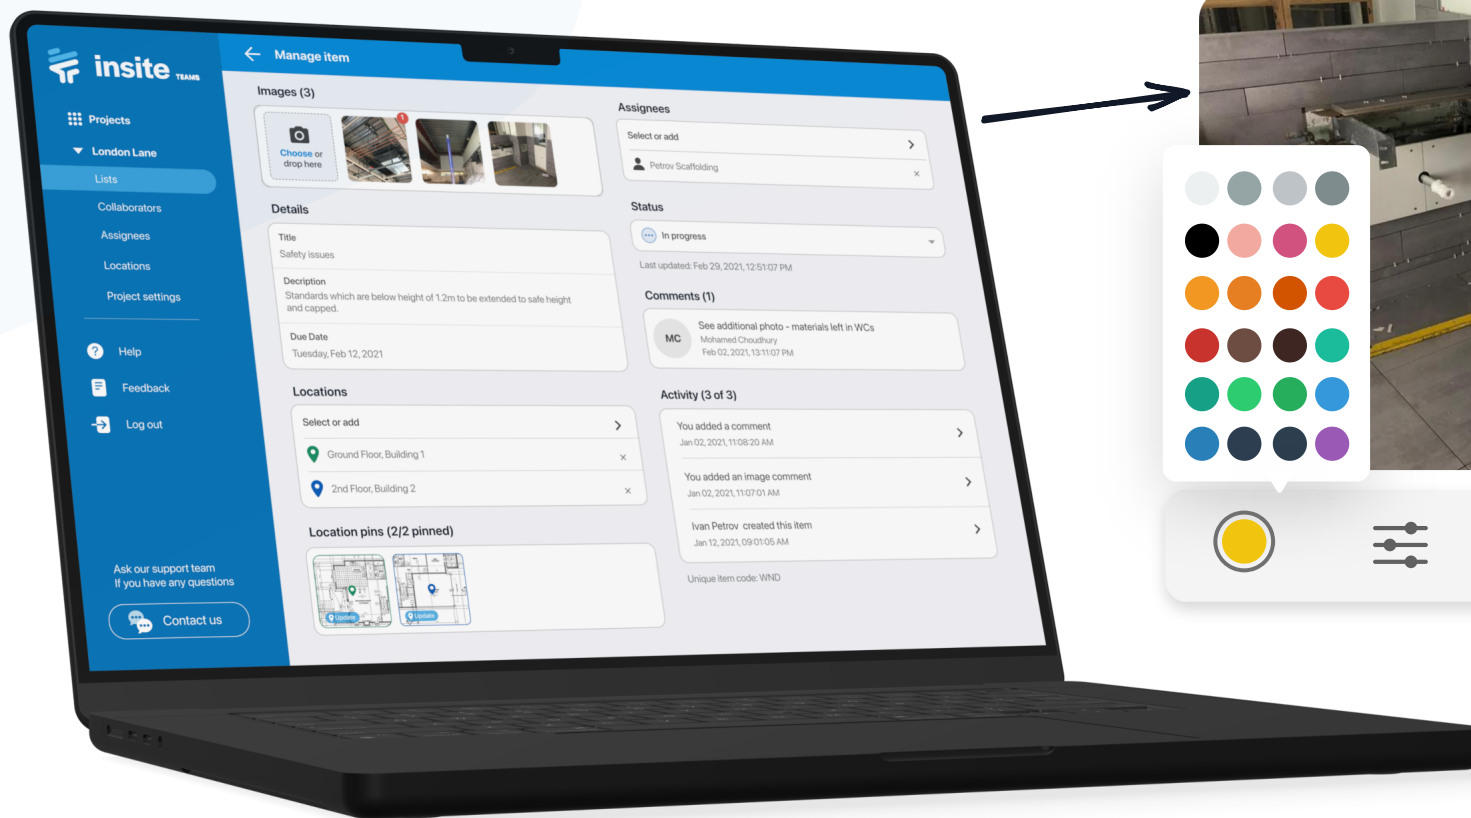

Audit & track

Easily track snagging, safety, QA, condition surveys and more. Receive notifications for completed, in-progress or overdue tasks, and remotely approve or reject progress updates.

Report

Instantly generate & share detailed visual PDF & spreadsheet reports that reflect your brand.

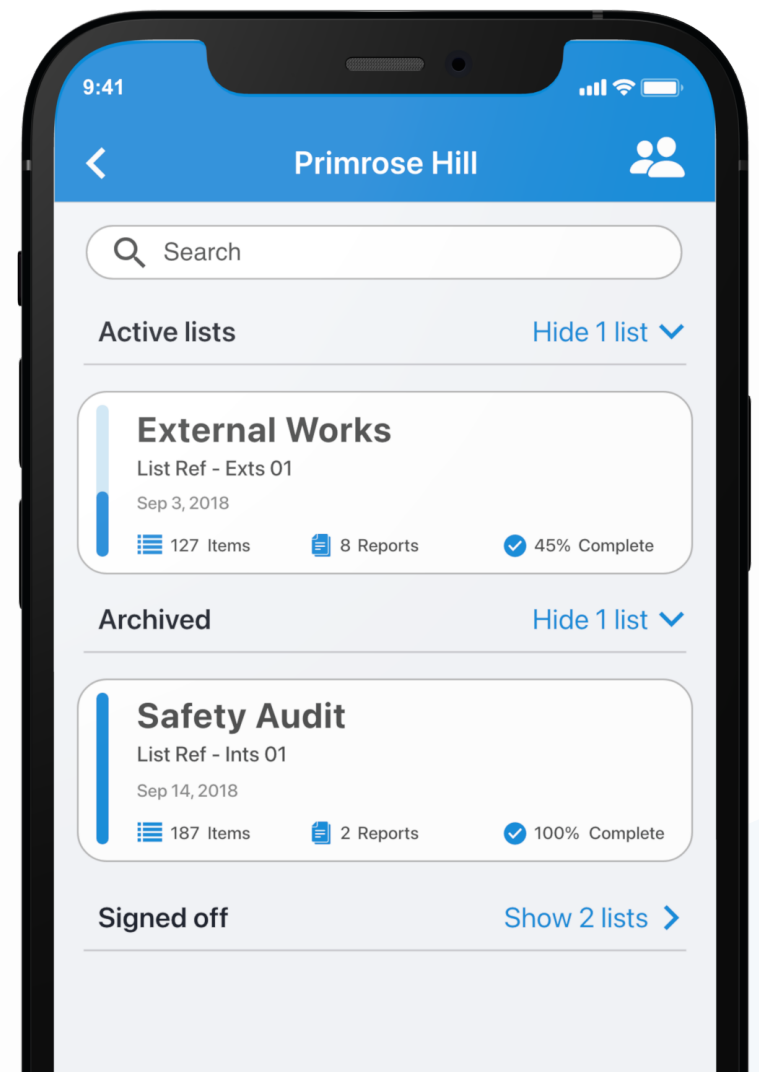

Assign tasks & set up workflows

Say goodbye to paperwork and spreadsheets. Carry out inspections on your preferred device, **even offline**. Capture every detail efficiently and start saving time and money.

Plan audits and inspections in advance. Create or import templates and **configure reminders** to make your team accountable.

Issue & defect tracking

Resolve issues quicker and keep a track record of your projects' progress with **faster inspections** and instantly generated reports.

Prioritise tasks and track their close out with **live progress updates**.

Reports on Insite are automatically formatted into professional layouts, making it easy for you to **email or print** to share with others.

Define your company hierarchy and **set up user roles** and permissions to ensure correct escalations and reporting.

Instantly generate & share visual and engaging reports which can be customised to reflect your company's brand.

Collaborate with your team

Projects are stored in the Cloud and accessible **on any device**. Use roles and permissions to ensure the right people have access to the correct projects to keep your data protected.

Create custom workflows to share reports, assign actions and send reminders. Enable **seamless collaboration** between your team.

Mark-ups & Templates

Pin issues and tasks on drawings and assign them to your locations. Drawings allow for **greater accuracy** on your projects making sure each issue is recorded with precision. Distribute tasks to your field staff to be completed with assigned locations, due dates, and priorities.

Set up checklist templates and adapt them to your needs for specific repetitive tasks. The more efficient way to standardise procedures in your day to day operations.

Move over to a better way of working. Download the Insite app today and claim your free **14-day free trial**.
